1 PAINT THE SKY

Using your 1" brush, paint the entire canvas a light sky blue. Keep it smooth and even.

TIP: Work quickly and lightly to avoid streaks.

2 BUILD THE BALLOON CLUSTER

Using Q-tips, start dotting your colours in a large circular shape. Layer different colours and keep filling it in.

TIP: It may look messy at first—keep going.

3 ADD CLOUDS

Use a cotton ball with white paint to gently dab soft clouds around the sky.

TIP: Light pressure creates softer clouds.

4 DRAW THE STRINGS

Once dry, use your paint marker to draw lines from the balloons down to a bow.

TIP: Lightly sketch first if needed.

FINAL TOUCHES

- Add more dots if needed
- Brighten with small white highlights
- Adjust cloud shapes
